

### **DETAILED ACTION**

Amendment filed after Final rejection filed on November 18, 2009 is acknowledged and entered. Terminal disclaimer filed on November 20, 2009 has been accepted and approved.

Claims 1-4, 6-7, 11, 14-19, 21-26, and 29-31 are pending in this application.

**Claims 1-4, 6-7, 11, 14-19, 21-26, and 29-31 are allowed.**

### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The Pingel reference (US Patent No. 6,903,069) utilized in the 103(a) rejection is a 102(e) date reference. Applicant indicated that the present application and Pingel were, at the same time the invention of the present Application was made, owned by Novo Nordisk. Therefore, the Pingel reference is disqualified as prior art. See MPEP 706.02(I)(2). Therefore, a liquid, aqueous composition comprising (i) a factor VII polypeptide; (ii) an agent suitable for keeping pH in the range of from about 5.5 to about 7.0; (iii) a calcium salt in a concentration of at least 200 mM is both novel and unobvious over the prior art of record. Support for amendment to claim 31 can be found at paragraph [0048] of instant specification 2004/0037893 A1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
